

Creating unique presentations everywhere with Trifork Presenter

Access to sales and marketing collateral

Presenter is easy access to your sales and marketing collateral - no matter where you are and even offline. Quick drag and composition of presentations right at your fingertips. Creating exceptional customer experience and high quality meetings.

Do you find it a recurring burden for your sales force to obtain the latest version of your sales presentations, register activities after sales meetings and sending presented material to customers? Then Presenter is what you are looking for to efficiently support your sales activities.

Modern, professional, mobile and empowered. This is what your sales force will be and what your customers will think of when you are using the Presenter technology on any tablets.

Presenter lets your employees be present and support their personal performance.

Global access

Presenter is a convenient and time saving application suitable for managing a portfolio of different documents while efficiently empowering your professional sales organization. Presenter provides a complete overview of all updated company presentations and documents. Presenter is an intuitive and powerful visual tool providing the latest presentations, product information, promotions, prices, documentation and much more on the go.

Add-ons

And if that is not enough you can add great extra features like Signed function and 3D Viewer. Signed makes it possible to sign contract on the go while you close the deal with the customer. 3D Viewer function enables you to display your products in amazing 3D.

Key Features

- Easy distribution - Updated files and presentation at your hand even offline. Synchronize with notifications of updated files.
- Your brand - Presenter is customized and designed in your company brand and graphics
- Easy to use - Empowering all your mobile colleagues on the road
- Secure - A secure mobile extranet with permission and administration
- Easy integration - Integrate with your existing CMS/ CRM systems
- Multiplatform - Support all platform: iOS, Android, Windows 8 and includes reporting & statistics
- All tablets - Presenter runs on any tablet or even on an iPhone.

Creating unique presentations everywhere with Trifork Presenter

Access to sales and marketing collateral

Compose and present

Presenter enables the sales and marketing team to have relevant and updated material from the corporate CMS on their iPads at all times. From the iPad, they can quickly drag and drop different presentations including PDF's, videos and pictures and compose a tailor made presentation targeted a specific customer. Also, the presentation can easily be sent to the customer with a note after the meeting. Manage and update all your company files from

a central point and control whom gets access. Presenter automatically synchronize with the companies CMS and with notification on the iPad if there is any updated or new files. Hereby your material is always up-to-date.

Easy in any way as 1-2-3

Presenter is an out-of-the-box product ready to use immediately. Presenter is of course secure and offers extra safety for your mobile colleges.

All you have to do is order and:

1. Send your cooperate company brand and graphics (skin)
2. Login to your content systems for integration (API)
3. Download Presenter app and you are on the go creating unique inter-active presentations and exceptional customer experience.
