

# A 3 DAY CLOUD WORKSHOP

Understand, define and plan your Cloud journey

## The Workshop

Create or scale your cloud foundation for you to innovate faster and deliver business value to your clients and stakeholders.

### Day 1 - Where are you now and where would you like to be?

We analyze the situation and define any gaps and challenges for reaching your goal. We share best practices on digital innovation strategies and give you clarity on definitions and approaches.

### Day 2 - What are your cloud options?

We focus on ideating on a range of solution scenarios and home in on the best fit for your organization.

The ideation and strategic analysis' translate into business case(s) describing the scope and value of the project.

### Day 3 - How do you get there?

We prioritize solution scenarios along with tasks and plan iterations. We define an innovation- and cloud-skills building program for your team. We select collaboration methods and tasks for the first iterations.

### Duration

3 Days, 08:00 – 17:00

### Who should attend

- Business Owner
- Product Owner
- Responsible for Cloud/IT Operations
- CIO/CTO/CDO
- Digital Project Manager
- Application developer

*To achieve maximum impact, we recommend participation of a full organizational cross section from strategic decision-maker to frontline employee.*

### Trifork Facilitators

- Accelerate Workshop Facilitator
- 2 x Cloud Engineers
- Senior Project Manager
- Senior Architect, containerization
- Business Development Manager
- User Experience Lead

## Workshop Content

### Day 1 – Understand & define

We start by understanding

- Setting the scene
- Cloud understanding and definitions
- Architecture ecosystem
- Mapping of challenges and opportunities
- Prioritizing of challenges and opportunities

### Day 2 – Ideate & design

We build on identified context by:

- Getting inspiration from similar use-cases in Trifork context around architecture and risk
- Ideating on use-cases for a new cloud solution
- Identifying ‘dark spots’  
– what we know we don’t know
- Discuss vendor strategy

### Day 3 – Align & plan

We plan and align expectations by:

- Prioritizing future Cloud scenarios/use-cases
- Defining high-level activities for selected scenarios/use-cases
- Outlining high-level migration roadmap
- Identifying high-level business case(s)
- Defining and planning customer education needs

## Key Workshop Outputs

- Catalogue of cloud use-cases
- Decision Brief/Executive Summary incl. plan for migration and high-level business case
- Plan high-level activities for cloud development

## Why Trifork

- 10+ years of experience with cloud innovation-driven business models and architectures
- Cloud agnostic – experts in the top 5 leading cloud platforms
- Experts in combining business knowhow with technical expertise into digital business ecosystems

## The Cloud Journey

### Pre workshop

- 2-3 hours Kickoff meeting, prior to the workshop, defining the current situation, and planning necessary preparation.

### Post workshop – Next steps

- 2-4 Weeks PoC or Migration Pilot
- Cloud for C-Level Strategy Session
- On-site/in-house Customer Training

**TRIFORK.**  
...think software

Trifork is a fast growing technology innovation company, headquartered in Switzerland with main branches in the Nordics, Netherlands and the UK. Founded in 1996, we now have offices across Europe and North America.

We believe we can change the world with software. We think smarter solutions that make life better and easier for everyone.
